

National Child Abuse Prevention Month

**Blue Bow Campaign**

# The Science of Hope: A Framework for Practice and Prevention

Free Virtual Workshop Presented by Dr. Angela Pharris

## Did you know there's a field of research known as The Science of Hope?

It plays a crucial role as a protective factor in prevention work. Parents and children who have hope have better outcomes in programs.

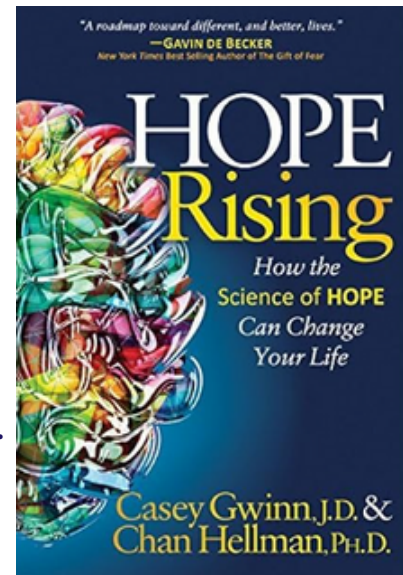

### In this virtual session, you will:

- Learn about the Science and Power of Hope and its core tenets through research and real-world examples.
- Discover practical strategies to nurture hope in the families you serve.
- Gain knowledge that you can immediately apply to your own life and work with families.

**Tuesday, April 22, 2025**

**Noon to 1:30 p.m.**

Please register by scanning the QR code or click [HERE](#).

Dr. Angela Pharris is an associate professor at the University of Oklahoma's Anne & Henry Zarrow School of Social Work, director of the Child Welfare Impact Institute, and senior researcher at the Hope Research Center. Her research focuses on implementing hope-centered and trauma-informed practices in human service programs, particularly

in child welfare. This research informed the development of the Hope Centered and Trauma-Informed training program®. For more information about the Hope Research Center **click [HERE](#)**.
